# Design to create a dream

*When browsing Album Epoca you immediately feel the elegance, style and quality.*

Your Wedding Album will fill you with the wonder of joy, happiness and unforgettable moments from your special day. Romantic imagery and graphic art in perfect harmony will flow as in a poem. By adding exclusive touches and the choice of elegant ornament, your Album Epoca is your story.

Inscribed lettering in precious metals on leather or in Swarovski; the edge of each page gilded in gold or silver make your Album Epoca the dream you will cherish for a lifetime.

Composition cover albums consist of three parts (front, spine and back) that can be made from the same or different materials. These albums have been a hallmark of traditional Italian design for many years.

The ultimate in modern, minimalist design. Albums with a continuous cover and rounded spine present a sleek, streamlined look without interruption, where materials blend seamlessly to create an album of enormous appeal.

Retro Collection

A journey into the designs of the 40's and 60's. Highly sophisticated elegance thanks to the combination of fabrics and leathers and eccentric colours.

# Contemporary Collection

Luxury fashion pervades every detail of the “Contemporary Collection”, turning the album into a real “objet d’art” to show and admire. Precious accessories, refined finishes and colours, are a tribute to Italian style that is appreciated worldwide.

Tradition Collection

The taste is classic with contemporary touches that create both modern and traditional styles in harmony.
